EXAMINER'S AMENDMENT

(1)

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Cross Reference to Related Applications (amendment filed 4/20/2004), "which has been allowed" has been deleted and ", now U.S. Patent No. 6,743,518" has been inserted.

(2)

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The drawing filed 8/17, 2005 has been accepted. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

(3)

The following is an examiner's statement of reasons for allowance: The closest prior art of record, Venigalla et al., discloses providing barium titanate (BaTiO_3) powder with a coating of silicate sintering aid such as barium silicate which contains the A-site component using a solution containing tetraethoxysilane. The prior art of record does not disclose or suggest making a ceramic capacitor from an unsintered ceramic powder by making unsintered ceramic powder of ABO_3 perovskite crystal structure which includes tetraethoxysilane and barium acetate as

Art Unit: 1734

additive containing the A-site component, such that in the sintered body, a ratio A/B of an outer portion of the ceramic grains is greater than that of an inner portion thereof. The ratio A/B denotes molar ratio x/y of A and B of the perovskite crystal structure, and the outer portion of a ceramic grain indicates a portion of the ceramic grain from the outer surface towards the center thereof up to about 10 nm in depth and does not refer to a part of the grain boundary, while the inner portion represents a portion of the ceramic grain inside the outer portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

(4)

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Curtis Mayes whose telephone number is 571-272-1234. The examiner can normally be reached on Mon-Fri 7:30 AM - 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Fiorilla can be reached on 571-272-1187. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
